## 2010 Summer Math Assignment for Rising Eighth Graders

Realizing that information not practiced and utilized is often completely forgotten or easily confused in the minds of all students, we are implementing a summer math assignment for all middle school students. We believe this activity will assist all students as they begin the upcoming school year. The students will have more confidence, and the class as a whole will advance at a quicker pace academically.

All students must purchase a spiral notebook for their work and the *Skills for Success Pre-Algebra* workbook. Item #CD-4323 from Carson-Dellosa Publishing Company.

ISBN # 0-88724-952-3

([www.carsondellosa.com](http://www.carsondellosa.com) or from a school supply store)

All rising 8<sup>th</sup> grade students must complete the **review page and the test** for the unit 1-6, as listed below. Other pages within each unit should be used to answer questions and for reinforcement.

- Students must show all of their work and may not use calculators.
- Students must check their work using the answer keys in the back of the workbook.
- If answers are correct, move one. If an answer is incorrect, then student should mark out the problem and rework. If the answer is still incorrect, circle this problem for use as review during first week of school.

The workbook and spiral notebook with all work will be collected on the first full day of school and will constitute one quiz grade to begin the first quarter. Additionally, a test will be administered during the second week of school covering the units completed in the workbook.

The following schedule should be adhered to in order for a student to complete the necessary assignments prior to the first day of school in the fall.

<u>Unit(s) Assigned</u>	<u>Complete Prior to</u>
1 (pages 14 and 15)	June 1
2 (pages 28 and 29)	June 14
3 (pages 41 and 42)	June 28
4 (pages 51 and 52)	July 12
5 (pages 62 and 63)	July 26
6 (pages 71 and 72)	August 2

\*\*\*\*The remainder of the workbook will be utilized throughout the course of the year as a resource for your child to reinforce the basics of concepts being covered in Algebra class.
